The New Treaty With Spain.

THE CHINESE QUESTION.

A Modern Lucretia — Important Legal Decisions—Congressional News.

[*Special to the Herald by Associated Press.*]

MADRID, Dec. 8.—The text of the treaty with Spain negotiated by Minister Foster is as follows:

Article I. The United States of America in reciprocity for the concessions and privileges stipulated by Spain in the present treaty, and as an equivalent of the same agree to admit into all ports of entry of the said United States, free of import duties or with duties to which they are subjected in the accompanying tariff marked "A" all articles or merchandise enumerated in the same, provided always that said articles or merchandise enumerated in said tariff "A" shall be natural products, or products of the industries and manufactures of the Spanish isles and provinces of Cuba and Porto Rico, and moreover, provided always, that said articles or merchandise be transported directly from the said isles to the United States in bottoms which shall be the exclusive property of citizens of the United States or of Spain. If, during the existence of this treaty, any reduction is made in the import duties of the United States upon any article or articles among those enumerated in the tariff, upon which duties are imposed, the duties of said tariff "A" shall be proportionately reduced upon said article.

Article 2. — Spain, in reciprocity for the concessions and privileges stipulated by the United States in the present treaty, and as an equivalent of the same, agrees to admit in all ports of entry in the Spanish isles and the provinces of Cuba and Porto Rico, free of import duties or with duties imposed in the annexed tariffs "B" and "C," respectively, all articles and merchandise enumerated in said tariff; provided always that the articles or merchandise enumerated in said tariff "B" and "C" shall be natural products or products of the industries or manufactures of the United States; and furthermore, that said articles or merchandise shall be transported from the United States to said islands in bottoms which shall be the exclusive property of Spanish citizens or of citizens of the United States, and whose officers shall be respectively Spanish citizens or citizens of said United States. If during the existence of this treaty any reduction in the third column of tariff of Cuba or of Porto Rico, or in the column in force, in case the said third column shall be replaced by another in regard to any article or articles of those named in tariffs "B" and "C," which duties are imposed, the entries of said tariffs "B" and "C" upon said articles shall be proportionately reduced.

Tariff A—Articles and products of the provinces of Cuba and Porto Rico to be admitted into the United States on the following condition: Free from duty—Horses, cows, coffee, fish, fresh fruits, cotton, hemp, flax, hides, skins (undressed), analine and mineral dyes, palm oil, sugars not above 16, Dutch standard in color, leaves of crystallized syrup, sugar cane, melador molasses, seeds, woods, cast iron, eggs, honey, wax, sponges, bones, guano manure, cocoa exparts, horse hair, rushes, osiers, straw, coins of gold or silver. Subject to duty—Cigars, cigarettes, bequeros, $1.25 per pound, 12½ per cent. ad valorem; tobacco leaves requiring more than one hundred to the pound, if having stems, 37c per pound without stems, 50c; on other tobacco in leaves, having stems 17½c per pound. Tobacco manufactured, of every kind, tobacco without stems, 30c per pound. Snuff, powdered tobacco, 25c per pound. Tobacco not manufactured, 15 per cent. ad valorem.

Tariff B—Articles of product of the United States which shall be admitted into Cuba exempt from duty: Beer, fresh meats, bacon, fruits, fish, shell fish, grain, and other cereals, excepting rice, flour, lard swine, beef, cheese, eggs and bread, woods of all kinds, staves, knees, timber, pipes, boxes, wood, cattle, sheep and goats, hogs, stones and earths employed in construction and in arts and industries, clay, tiles, brick and tiles unglazed, hides and undressed skins, minerals or metals, coins of silver or gold, useful tools, agricultural implements, agricultural papers, industrial and scientific motors of all classes and materials, and separate parts of the same, raw cotton, hemp, flax, jute and all other raw vegetable fibres, wool, hogs hair, raw horse hair, asphalt, refined bitumen, tar, pitch, and rosin, petroleum, raw or crude, mineral and vegetable coal, mineral waters, trees, plants, vines shoots, and seeds, natural and artificial manures, marble, jasper, albaster in blocks and sheets of rough or prepared, other stones and earths employed in construction, minerals and metals, ice, cast iron in pigs and all forms of waste steel and iron, cast iron in tubes, manufactured malleable iron and steel in cars and all classes of wire in copper and iron, nails, screws, rivets, wrought iron tubes, wire guage unmanufactured.

Tariff "C."—Substances used in chemical industries, drugs, simples, seeds of cotton and all oleaginous products of the same, except oil, tanning liquids, grease and all other animal oily substances unmanufactured, not comprised in this tariff.

Class "D."—Cotton in its manufactured forms, raw cotton with or without seeds.

Class "E."—Other vegetable fibres and their manufactured forms, hemp, flax, jute and other raw vegetable fibres.

CONGRESSIONAL.

Senate.

WASHINGTON, Dec. 8.—A message being received from the House announcing the non-concurrence of that body in the Senate amendments to the bill forfeiting unearned lands granted to the Atlantic and Pacific Railroad, the Senate insisted on its amendment and ordered a Committee of Conference. The Chair appointed as such committee Morgan, Blair and Plumb.

The following bills were introduced and referred: By Blair, for the appropriation of $50,000 to promote the Colored People's World's Exposition to be held at Chicago in September, 1885.

By Ingalls, to amend the revised statutes so as to make the day of the inauguration of a President of the United States a legal holiday in the District of Columbia.

Allison submitted a joint resolution, which passed, extending the time fixed for the submission of the report of the joint commission appointed.

Dolph called up the bill reported from the Committee on Railroads last session providing for the incorporation of the Spokane Falls and Cœur d'Alene Railroad Company in the Territories of Idaho and Washington.

Harrison criticised the bill as covering a class of legislation properly belonging to the Territories. From a number of branches provided for by the bill, he thought it likely that the company could monopolize all the passes through the mountains, and from other provisions it seemed the company could secure lands enough to absorb the public domain, as well as the railroads in the two Territories named.

Dolph defended the bill as containing only customary provisions.

Platt said it had come to be the fashion in the United States to build railroads without any cash capital, and that the fashion of building railroads on paper was working infinite mischief. When the railroads were so built the people were taxed twice as much for fare and freights as they would be if the roads were built for cash, in order that the roads may pay dividends on the amount of capital stock. Vest enquired if the W. H. Armstrong, named in the bill as one of the corporators, was the Railroad Commissioner of the United States. Dolph replied that he did not know. The amendments as proposed by Harrison were agreed to, cutting off the company's right to consolidate with other roads or build branches. Further consideration was postponed by the limitation of the executive session. Adjourned.

House.

WASHINGTON, Dec. 8.—The following bills were introduced and referred:

By Buckner—To suspend the coinage of silver dollars. The Speaker said that under the rules the bill should be referred to the Committee on Coinage, Weights and Measures. Buckner asked for it to be referred to the Committee on Banking and Currency. The bill was referred as indicated by the Speaker.

By Robinson, of New York—For restoring inaugural ceremonies to Jeffersonian simplicity.

By Cox, of New York—A resolution requesting the opinion of the Attorney-General whether the provision in the eight-hour law will relate to letter carriers.

Findley advocated the bill of the Committee on Railroads, especially the section providing for a commission. O'Neill (Penn.) said the railroad companies desired proper legislation, and had sought it in State legislation. The various States had laws regulating railroad transportation, and he did not see why Congress should seek to bring into the hand of the National Government the control of these corporations. He favored the commission only for the purpose of obtaining information.

Warner, of Ohio, maintained that the time had come when the General Government should assume the regulation of inter-state traffic on railroads. Unreasonable preference to certain shippers and unjust discrimination against others was the most crying evil perpetrated by railroad companies and steps should be taken to eradicate that evil.

Rockwell and Rice opposed the Reagan substitute. Pending further discussion the matter went over.

The Senate joint resolution passed, extending until the first Monday in January the time within which the joint committee appointed to enquire into the conduct of coast and geodetic surveys of the Signal Office, etc., may report.

Adjourned.

The Grain Market.

SAN FRANCISCO, Dec. 8.—Wheat steady and quiet, buyer season, $1.37¾@$1.38¼. Barley firm, quiet; seller season, 99c; buyer, $1.00, buyer season, $1.10¾@$1.12.

Suspended.

NEW YORK, Dec. 8.—George Opdyke & Co., bankers and brokers, have notified the Stock Exchange of their suspension. It was the best known firm in the city.

Congressional Gossip.

WASHINGTON, D. C., Dec. 8.—The House resumed consideration of the inter-state commerce bill.

The President has notified the managers of the New Orleans Exposition that it will be impossible for him to leave Washington to attend the opening of the Exposition on the 16th but that he hopes to be able to visit the Exposition during January.

The President has appointed O. O. Stealey, W. G. Nichols and W. W. Burnham a Committee to examine the completed portion of the Southern Pacific Railroad in California.

Gen. Foster, United States Minister to Spain, arrived in Washington this morning and presented the Secretary of State a copy of the treaty entered into between Spain and the United States.

A bill was introduced in the House to-day by Beach to maintain the secrecy of the ballot in the election of Representatives and Delegates in Congress. It provides for a separate, uniform ballot, upon which candidates are to be voted for. The quality of paper and size of type are specified, and general provisions are made that all ballots must be the same in outward appearance. An important change in the existing law is made in respect to what is a legal ballot. Section 29 of the Revised Statutes provides that all votes for Representatives must be by written or printed ballot, and nullifies all votes which are not so cast. Beach's bill permits the ballot to be printed or written, or partly printed and written. The bill also requires that all Representatives and Delegates shall be voted for upon separate ballot.

Owing to the crowded condition of the calendar the House Committee on Pacific Railroads informally decided to-day not to urge the consideration of the bills introduced last session by Representatives Sumner and Belford, relative to the regulation of rates of transportation on the Union Pacific and Central Pacific roads.

Postmaster-General Hatton recommends an immediate appropriation of $100,000 for the railroad postal car service for the remainder of the year. In a letter sent to the House to-day, he says: "The accomplishment of certain desired improvements in the Postal service, whereby time in transit between the East and far West has been reduced, has rendered it necessary to establish a greater amount of railway postoffice car service than anticipated when the estimate was submitted and the appropriation made for that object." Hatton also sent a letter to the House recommending an appropriation of $75,000 for the employment of additional clerks at Chicago, Cincinnati, Cleveland, Indianapolis, Louisville, St. Louis, San Francisco and other cities.

The nomination of Hugh McCulloch, as Secretary of the Treasury, was favorably reported from the Senate Committee on Finance to-day, but Senator Riddleberger objected to its present consideration, and under the rules it went over to the next executive session.

Representative Morton's bill to amend the statutes relative to the transportation of dutiable goods, introduced to-day, provides for the amendment of the statutes so that the regulations governing inland transportation shall apply to the baggage of the traveling public.

L. S. Martin, superintendent of the special agents of the treasury, in his annual report says: No permanent suppression of that practice under the valuation of merchandise subject to advalorem duties can be expected until the act of June 22d, 1884, under the protection of which this system of fraud has grown up, shall be repealed. It is no exaggeration to state that the invoices of merchandise consigned to agents in the United States for sale, as distinguished from those of goods actually purchased by American importers, do not represent more than two-thirds of the actual foreign market value of the goods therein described. An illegal reduction of the tariff on goods thus effected by the fraudulent acts of European manufacturers and their agents. In fact the European manufacturer, by the fictitious values he places on his goods for customs, fixes the amount of taxes and the amount to be paid thereon, subject only to such additions as the greater or lesser skill and vigilance of the appraising officer may impose. However competent and faithful the appraisers may be in fixing values according to their expert knowledge, their action is always subject to review and reversal by the Reappraising Board, which usually decides according to evidence submitted and ascertains the kinds of goods that are exclusively imported under the consignment systems. Agents and manufacturers stand by each other in reappraisements and by the means of testimony thus obtained in many cases they escape the advances and penalties originally imposed by the action of the appraisers. Had the law above referred to been enacted for the express purpose of enabling foreign manufacturers to circumvent the tariff laws it could not have better accomplished that object.

LEGAL DECISIONS.

Holdings of the Supreme Court in Important Cases.

WASHINGTON, Dec. 8.—In the Supreme Court to-day a decision was rendered in the railroad case of the Chicago, Milwaukee & St. Paul Railway Company, plaintiff in error, against Duane O. Ross. This was a suit brought by the engineer of a gravel train against the company to recover damages for injuries sustained by him in a collision with a freight train due to the carelessness of the conductor of the latter. The Court below charged the jury that if in their opinion the accident was caused by the negligence of the conductor of the freight train and without contributory negligence of the plaintiff the railway company was liable because the relations of superior and inferior officers was created by the company, as between the two in operation of its train, and they were not within reason of law, fellow-servants engaged in the same common employment. This court holds that the charge was correct and the judgment of the Circuit Court is affirmed. A decision was also rendered in the railroad land case of the Kansas Pacific Railroad Company, appellant, against the Atchison, Topeka and Santa Fe Railroad Company, a suit involving title to five thousand acres of land in Waubaunsee and Osage counties, Kansas. This court holds that the Kansas Pacific Company, under the acts of Congress of 1862 and 1864, by compliance with all their provisions in the construction of its road, has acquired a title to the lands in controversy, and has accordingly a right to the record evidence of it in the form of a patent. The decree of the court below is therefore reversed and the case remanded, with directions to enter a decree adjudging a title to the lands in controversy to the Kansas Pacific Company, and that the Atchison, Topeka and Santa Fe Company execute to the Kansas Pacific Company a conveyance of its claim and interest therein.

A decision was also rendered in the case of the United States, appellant, against Wm. H. Emery, and the same appellant against J. H. North, brought here from the Court of Claims, which involves the question as to whether officers of the regular army and navy, who served out their engagements or were honorably discharged in the Mexican War, are entitled to three months' extra pay. This court holds that they are. The number of officers affected by this decision is four or five hundred.

A MODERN LUCRETIA.

A Girl Poisons her Relatives and then Suicides.

CHICAGO, Dec. 8.—A telegram from Whitewater yesterday said that Miss Annie Haxan of that place, had died suddenly under circumstances indicating that she had been poisoned; that about three years before, her father, mother and sister died within a short time of each other, under similar circumstances; that though it had created considerable talk nothing was done. This was revived by Annie's death, and to settle the question definitely her stomach was sent to a chemist for analysis. The deaths of all were surrounded by complete mystery, no one being suspected. To-night the *Inter-Ocean* has a dispatch from Fort Atkinson, where the family formerly lived and were much respected. The dispatch says that a report is received there from Whitewater that the third sister, Miss Nettie, died there to-day of poison, making the fifth member of the family. In this case it was suicide, and before death Nettie confessed to having murdered her parents and two sisters. It is also asserted that she confessed to poisoning another person, though this is doubtful. No cause is assigned for the crimes. Her own death was brought about by fear of exposure through the analysis of her sister's stomach. Nettie was a school teacher and has two sisters still living at Fort Atkinson.

Burglars Foiled.

SAN FRANCISCO, Dec. 8.—An Albuquerque, New Mexico, special says: News has reached this city that a daring attempt was made last night to burglarize the office of the Territorial Auditor at Santa Fe. Papers and books were taken from the desk and scattered on the floor, but all the valuable documents, warrants and many thousand dollars in cash were securely locked in a fire and burglar-proof safe, which foiled the designs of the burglars. As a number of suspicious characters have recently arrived in this city, driven out of Denver, it is the supposition that they are the perpetrators. The Auditor, Trinidad Alarid, is at present in San Francisco.

A Reduction in Sugar.

SAN FRANCISCO, Dec. 8.—The California Sugar Refinery announces a reduction of one cent per pound, to go into effect to-day. This makes the price the lowest ever quoted on this coast. The new rates for patent Cube "A" are seven and three-quarter cents. This is six cents a pound lower than the selling price of eighteen months ago.

The Stock Market.

NEW YORK, Dec. 8.—Governments weak; railways lower; stock depressed throughout the day, except a rally about middle of ¼ to ½ per cent. The market closed weak at the lowest prices of the day. Speculation was adversely affected by reports of trouble in the coal combination and on the rumors of the issue of $10,000,000 of 5 per cent bonds by the Lake Shore to retire bonds falling due in 1885 and 1886. Compared with Saturday the closing prices are from ¼ to 3½ per cent lower. The mining market rated quiet during the morning, aggregate transactions being only 2600 shares. Sales included Mono at 105, Bodie 245, Bulwer 310@338, Chrysolite 55, Navajo 295, Plymouth 1.85, and Horn Silver 465@460 regular and 470 seller. The production of Horn Silver from January 1st to November 1st is reported at $2,390,000, while for the same period the output of the Ontario mine was $1,447,500.

THE CHINESE.

An Important Decision on the Re-Entry of Laborers.

WASHINGTON, D. C., Dec. 8.—A decision was rendered in the Supreme Court of the United States this afternoon, in an important California case, Chew Heong plaintiff, in error, against the United States. It was a test case involving the construction of the so-called Chinese restriction acts of May 6th, 1882, and July 5th, 1884. Chew Heong, the plaintiff in error, is a Chinese laborer and a subject of the Emperor of China; he was in the United States on the 17th of November, 1880, the date of the adoption of the last treaty between China and the United States, and remained therein until June, 1881, when he went to Honolulu, returning therefrom to San Francisco September last. As the restriction act of 1882 had not become a law when he left the United States, he did not, of course, provide himself with a certificate which is prescribed as requisite to a re-entrance, and upon his return to San Francisco in September, 1884, the Custom House authorities refused to allow him to land, on the ground that, to permit him to do so, would be a violation of the Restriction Acts. He thereupon sued out a writ of habeas corpus, and brought it before the United States Circuit Court, where it was heard by Justice Field and Judge Sawyer. The Judges were divided in opinion, Justice Field holding that a laborer could not re-enter the United States without the certificate prescribed by Section IV of the Amended Restriction Act; Judge Sawyer, on the contrary, said that a Chinese laborer who was in the United States on the 17th of November, 1880, and departed therefrom prior to the passage of the Restriction Acts, could return without any certificate. The Judges thereupon certified to their division of opinion and judgment was entered in accordance with the opinion of Justice Field and the case was brought here by a writ of error. This Court holds that the Chinese Restriction Act of May 6th, 1880, as amended, requiring a contractor's certificate as the only evidence of the right of a Chinese laborer to re-enter the United States, is not applicable to a Chinese laborer who resided in this country at the date of the treaty of 1880, but who left this country before the act of May 6th, 1882, was passed and did not seek to re-enter until after the act of July 5th, 1884, was passed. The right of such laborer to re-enter was secured by the treaty of 1880, and the Court holds that Congress did not intend to violate that right. Chinese laborers who were here at the date of the treaty can be admitted. The Court holds upon such evidence as will be competent under the general principles of the law. The opinion was by Justice Harlan, Justice Field dissenting.

The Chinese Question.

WASHINGTON, Dec. 8.—The Secretary of the Treasury has issued the following circular to customs officers, relating to Chinese coming to the United States: To promote uniformity in the admission of Chinese persons of the exempt class of the act of July 5, 1884, the following rules are prescribed:

First—Chinese persons, other than laborers, who now, or may hereafter, desire to depart from and return to the United States, may do so on the production of a certificate, corresponding to that required by section 6 of the act of July 5th, 1880, to be issued by a Chinese consular officer, stationed within the United States. A certificate issued under the act of May 6th, 1882, and decision 6-240, before the passage of said act of 1884, are to be remanded as having the same effect as if said act of 1884 had not been passed.

Second—Chinese subjects, not laborers, desiring to come to the United States from countries other than China, may do so on the production of a certificate, corresponding to that required by section 6 of the act of May, 1884, issued by a Chinese diplomatic or consular officer, if there be one at the port of departure, countersigned by a United States consular officer; or, if there be no such Chinese officer stationed at such port, on a like certificate to be issued by a United States consular officer.

Third—Regulations contained in decision 5544, dated January 23, 1883, relative to the transit of Chinese laborers through the United States, will be applied to all Chinese persons intending to go in transit through the United States.

Fourth—Chinese persons who may be compelled to touch at ports of the United States in transit to foreign countries, may be permitted to land under the regulation of January 23, 1883, S. 554, so far as the same may be applicable to such persons, to take passage by the next vessel leaving for their destination, or a voyage which may form a part of the route necessary to carry them to their destination.

Eloped with a Negro.

NEW YORK, Dec. 8.—The third elopement within a week, from within a small radius in Suffolk county, Long Island, took place yesterday. The wife of Ephriam Arch, a wealthy farmer and an earnest church-goer, of Onogue, ran away with a negro. Mrs. Arch was not a regular church attendant, and objected to her husband spending so much time about the church, away from her. When Mr. Arch returned from services yesterday he found a card, which his wife had written. She had heard of Dominie Downs' wife's elopement, and she saw no reason why she should not elope with the man she loved. Of course Arch was beside himself with rage and mortification, and his feelings were not eased when he was told that his wife had gone with a "nigger." "It's awful to think that Mary should have eloped with a nigger," he said, "but she will be as happy as she was with me."

A Bank Failure.

NEW YORK, Nov. 8.—The widely known firm of Opdyke & Co., bankers, made an assignment to-day without preference. A member of the firm said that the failure was due to customers who failed to respond to the call for margins. The assets will ultimately yield nearly, if not quite, enough to meet the liabilities. The major portion of the liabilities are secured, about $20,000 being unsecured. The firm was founded sixteen years ago by ex Mayor George Opdyke, who died in 1880. The firm suffered a loss of $1,000,000 in the panic of 1873, $500,000 being drawn from them in one run. The present firm was founded in 1881, with an invested capital of $250,000, and deposits about $1,000,000. They state that their contracts on the Stock Exchange will not exceed 50,000 shares and that neither individually nor as a firm have they speculated to the extent of one share. The firm was regarded as a strong concern and maintained a high grade of credit.

Interesting to Travelers.

SAN FRANCISCO, Dec. 8.—An interesting point for railroad travelers has just been decided by the Supreme Court of this State. The case was that of Rufus W. Landy, of Cawker City, Kansas, against the Central Pacific Railroad Company, representing the Union Pacific Railroad. He wrote and purchased a ticket at Omaha for San Francisco, and it was stamped good for nine days from date of issue. The ticket was two days in the mail on the way, and although he used the ticket as soon as he received it, the limitation expired while he was still en route. The conductor expelled him from the train at Kelton, Nev., on the ground that the ticket had expired. The court below held that the plaintiff must not only commence but complete his journey within nine days from the date of the ticket. The Supreme Court reversed this, and decided that if the bearer presented himself on the train of the Union Pacific and took passage at any time within nine days from the date of issue, it was all that was required.

The Weather Above.

STOCKTON, Cal., Dec. 8.—During the last forty-eight hours the wind has made the rounds of the compass, and is now blowing a heavy breeze from the north. It was four degrees below the freezing point last night, and the water pipes were frozen in some parts of this city, and there was ice a half inch thick. The late prevailing strong winds have taken the life out of the surface of the ground. Much young grain, sprouted by early rains, is killed outright. Plowing is necessarily suspended and must so remain until the rain makes its continuance possible. The sky to-day is partially overcast and the wind is moderating.

An Injunction Granted.

SANTA FE, N. M., Dec. 8.—Chief Justice Axtell Saturday granted an injunction restraining Governor Sheldon and others from using $10,000 now in the bank here as profits of the sale of the El Rito de Los Frijoles, a land grant located near this city. The property has just been sold to Mr. Fletcher, of Detroit, for $16,000, the same being negotiated by E. A. Fish, of Santa Fe, Governor Sheldon and E. P. Sheldon, of Cleveland, O. Mr. Knoebel claims that he and others held a bond on the property at the time of sale and are therefore entitled to a share of the profits.

Tucson's Election.

TUCSON, Dec. 8.—The city election here to-day was the all absorbing question. There were two tickets in the field, both nominated in mass meetings and made up regardless of political affiliations. Both parties worked hard for their candidates, but the one known as the citizens' ticket was the successful one, every man on it going in by a handsome majority. George Hayfield, proprietor of the Palace Hotel, was elected Mayor over Andrew Cronly, the present incumbent, by 318 majority.

A Wrestling Match.

SAN FRANCISCO, Dec. 8.—A mixed wrestling match for $600 and the mixed wrestling championship of the world, took place this evening at the California Theater between Duncan C. Ross and Tom Cannon. The first fall, wrestled in catch-as-catch-can style, was won by Cannon in 11¾ minutes. The second fall, side hold, was won by Ross in 2 minutes. Ross also won the third fall, side hold, in 3½ minutes. The fourth fall, Græco-Roman, was won by Cannon in 9 minutes. The fifth fall, collar and elbow, was won by Ross in 11 minutes. Twelve hundred people were present.

The Rain at Santa Barbara.

SANTA BARBARA, Dec. 8.—A rain yesterday continued nearly all night and a part of to-day. Sixty-hundredths of an inch fell. The weather is still unsettled. Many farmers have their corn and beans ungathered, which have been badly damaged.

Mrs. Mandelbaum Arrested.

HAMILTON, Ont., Dec. 8.—Mother Mandelbaum, the New York fence, her son Julius and her clerk, Herman Stroude, were arrested to-day.

Railway Matters.

CHICAGO, Dec. 8.—The Transcontinental Railway Association freight departments met here to-day to consider the question of through rates from seaboard to seaboard for the next year. To-day the business referred to that portion of the territory directly covered by their lines of association, to wit: between the Pacific Coast and the Missouri river. To-morrow a consultation will be held with the roads between the Missouri river and Chicago, and Wednesday they will leave for New York to consult with the roads between Chicago and the Atlantic sea board.

A Treaty Signed.

WASHINGTON, Dec. 8.—The treaty between Hawaii and the United States was signed Saturday. It merely provides for the extension of the present treaty for seven years from the date of ratification.

A CONSOLING REFLECTION.

Tea That Helps to Swell the Mortality List.

"It is not saying too much to assert that the use of spurious teas which has been so common for years past, has tended to aggravate the nerves and the digestive organs, has even caused disorders that were almost unknown to medical science before the days of drugged teas, and has helped to swell the mortality lists. It is a startling fact that almost without exception, adulterated teas are dangerous to health. Some of them are actually poisonous, especially the impure green teas, which contain copperas and Prussian blue.—[New York Herald, August 20, 1883.

Thus spoke one of the oldest and best known members of the wholesale tea trade to a New York *Herald* reporter. The remedy is to drink only teas imported to this country in the Perfection Tea Can, a package controlled by the Japan Tea Syndicate, which absolutely refuses to export any but pure teas of merit therein. The finest tea imported in this can is Eola Tea.

SUMMONS.

In the Superior Court, of the State of California, in and for the County of Los Angeles.

CAROLINA PAGANINI, Plaintiff,
vs.
PRINO PAGANINI, Defendant.

Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the Complaint filed in said County of Los Angeles, in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to Prino Paganini, Defendant:

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons—if served within this County; or, if served elsewhere, within thirty days—or judgment by default will be taken against you according to the prayer of said Complaint.

The said action is brought to obtain a decree of divorce, that the bonds of matrimony between plaintiff and the defendant be dissolved, and for such other decree as the nature of the case may require, and for costs of suit. Reference is had to Complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said Complaint as above required the said Plaintiff will apply for the relief prayed for in the complaint.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 15th day of November, in the year of our Lord one thousand eight hundred and eighty-four.

[SEAL] A. W. POTTS, Clerk.

GREAT HIGHWAY FOR THE PEOPLE!
NEW ATTRACTIONS for NEXT WEEK,
COMMENCING MONDAY, DEC. 8th.

The denizens of Los Angeles have been sorely vexed and are literally disgusted with the heavy tax imposed by merchants on the sale of their goods. The well-known firm of

J. M. HALE & Co.

Have done wonders to relieve this state of things, but there is no move, however potent it may have been, that stands out in such bold relief for the amelioration of the taxpayers or the futherance of a good healthy business than our present special sale which

The great feature for Monday morning will be the placing on sale of some
5000 Pure Linen Hemstitched Colored Bordered Handkerchiefs!
AT THE RADICAL PRICE OF 12 1-2 cts. 6 only to any one customer.

Booms pre-eminently as the wisest and most comprehensive move in the Dry Goods line yet inaugurated. It is proving itself sagacious in a double sense; it is relieving our firm of a heavy stock and is a veritable **God Send** to the people. It is not the accumulation of years that we have attempted to palm off on those who have given us their confidence, but a well selected and well purchased stock; the very pick of the Eastern market. A stock from which the peasant or princess may suitably attire themselves. Such are the materials we are now offering in our radical sale of

A Tribute and a Confession.

Elsewhere we republish from the San Francisco *Post* and *Alta* articles which are correctly designated in the heading of this brief disquisition. The *Post* has always, amongst the press of the Golden State, been the friend, *par excellence*, of the Orange Grove City and county. That journal has never intermitted an opportunity of saying a good word for us, year in and year out, and Angeleños would indeed be ungrateful if they failed to remember this sterling and timely friendship.

Nevertheless, while reproducing the hearty good words of our esteemed contemporary, we have a word of derpecation as to one portion of its remarks. While recognizing the strenuous and earnest service which the press of this city has done for this section, the *Post* adds that Los Angeles papers have been monotonous reading on account of their discharge of this most acceptable and exigent duty.

There we differ with it. On the contrary, we hold that the newspapers of this city have been all the more interesting on this very account. There is nothing that has more attraction to intelligent readers than detailed and continuous accounts of the growth of a new section. We have been often tempted into thinking that the San Francisco press has been singularly jejune and flat from its eternal iteration of the scandalous amours of the newly enriched vulgarians, like Sharon, who form such a large and discreditable portion of its population. The pages of Juvenal and other writers who dealt in the noisome details of the decline of the Roman Empire were full of just such effete and disgusting matter, notably in the case of the Empress Messalina. When we come to Los Angeles, however, we strike a fresh and virginal page, which is in harmony with the sweet and wholesome lays of Virgil and the other innocent poets and chroniclers of a robust and heroic age.

Thus, by a natural transition, we reach the threnody uttered by the *Alta* in a labored measure. That journal clearly sees the handwriting on the wall. The petering out of the Comstock lode, in connection with the completion of superb schemes of northern and southern transcontinental railways, throws San Francisco into an eclipse from which she can only be rescued by decades of painstaking labor. Her role of "Tolltaker by the Sea," happily for the people of this Coast, is ended perhaps for all time. When regard is had to the unlimited possibilities of Southern California, and to the immense potentialities of Wilmington harbor, there is nothing strained in assuming that San Francisco has already struck her perihelion and is now permanently on the down grade.

In view of the unquestionable decadence of San Francisco, why should not the people of this Coast and of the Atlantic Coast, for that matter, find a consolation and a centering point of interest in the comet-like ascent of Los Angeles to the very empyrean of prosperity and progress? The less of vulgar and prurient details of a demoralized social life that appears in the columns of our press the better. There are plenty of journals in which these can be sought for and found without polluting the family circle. Far better for us and for the world that the newspapers of Los Angeles should be conversant with facts of agricultural and horticultural development—with the progress of the vine, the orange, the lemon, the olive and the pomegranate—than with the drear and grisly and vulgar narratives of a debased and played-out civilization.

We cheerfully stand on the *Post's* arraignment.

The Truth of the Matter.

While, during the Presidential campaign, Mr. James G. Blaine was as smooth as butter and as mild as a Maine buttercup, when the campaign ended he could not refrain from flourishing the "bloody shirt," and shooting a Parthian arrow, as he supposed, into the camp of the victorious Democracy. His Augusta speech was another confirmation of the poet's aphorism that "genius is to folly near allied;" for, unquestionably, up to that time, the Plumed Knight had earned the reputation of being an unsurpassed political leader. Chagrin at his defeat overcame his better judgment. The success of the Democratic party has annihilated the color question, and has transmuted the "Solid South" from a national bugbear into a wholesome political agency. The idea we seek to convey is best expressed in an editorial which we take from the New York *Herald*, of December 1st, and which shows the perfect containment of the white people of the South as contrasted with the last impotent attempts of the Republican marplots of Virginia to incite trouble. We quote:

In Richmond, Va., a few days ago, there was a public parade to celebrate the election of Cleveland and Hendricks, and a number of respectable colored voters, including a political club from Halifax county, and another from Charlotte county, took part in it. What befell them? We will not go to Democratic sources for a report, but will quote from the local Blaine organ, the Richmond *Plant*, a paper edited and published exclusively by Blaine colored men. The *Plant* says:

> The Democrats paraded here last Tuesday night. Clubs from all parts of the State participated. Luckily it drizzled and rained all during the day. The drums gave a sick sound. Thousands of people witnessed the procession; among them were a small number of colored men. These had to be guarded by white men to such an extent that the outside protecting line was made up nearly entirely by white men. At each corner a reserve force of police added double protection from any possible attacks from those quarters.

Then the *Plant* expresses its editorial opinion that these Democratic colored paraders would have been killed if they had not been guarded as above described, and intimates that it would have served them right. Here is its language:

> The part taken by those negroes in that Democratic procession of last Tuesday night was humiliating to themselves in the extreme. The indignation of the colored people was plainly visible, and had they not been so well guarded by their white captors they would have "fired hard."

We agree with Blaine and his organs hereabouts in saying that "colored voters South ought to be protected in the freedom of their political preferences." But, nevertheless, there is a difference between us on the one hand and Blaine and his organs on the other hand upon this subject. We mean what we say, no matter what the colored voter's preference is. They do not mean what they say unless his preference happens to be for Blaine.

The *Tribune*, for example, delves daily through its Southern exchanges in search of paragraphs or sentences to propagate a false, mischievous, unpatriotic belief here that colored men were "solid" in prefering Blaine to Cleveland, and were bulldozed all over the South by the Democrats in the recent election. These it republishes assiduously, and at the same time suppresses the abundant evidence to the contrary which comes to its notice in its very search through the Southern press. No reader of the *Tribune*, for any intelligence he gains from that journal, would suspect that Blaine's partisans in the South exercise any terrorism anywhere over colored Democrats. All such news as to the perils the Democratic colored paraders in Richmond ran the other night is carefully stifled by the Blaine organs North. But if the Richmond parade had been in honor of Blaine instead of Cleveland, and the Richmond *Plant* had been a Cleveland paper, and its talk about killing had been directed against colored voters for Blaine, they would go into fits at its atrocity.

Thrifty Los Angeles.

The growth of Los Angeles city and county during the past four years has, considering all of the circumstances, been almost unparalleled. Recently published statistics, supposed to be reliable, show that in this brief period the population of both the city and the county has more than doubled, and the increase has been in about the same proportion in both. The figures are as follows:

	1880.	1884.
Los Angeles city	11,183	29,865
Los Angeles county	33,379	64,770
Total	44,562	94,635

The remarkable and *gratifying* feature of this exhibit is in the fact that the new population is of the most desirable character, made up almost exclusively of educated and refined people, who have brought with them sufficient means to purchase homes and aid in the development of the wonderful resources of that section of country. There are many causes which have led to this result. First and foremost is the fact that it possesses attractions that are both beautiful and practical, appealing alike to the senses and to the business judgment. Its climate is a never ending delight, and the possibilities of its producing capacity can scarcely be conceived. The building of the Southern Pacific gave it a wonderful impetus in furnishing it an output and a worldwide market for its products, and a virtual monopoly of the Arizona trade in nearly everything it could raise. This advantage cannot be taken away from Los Angeles, but belongs to her by virtue of her geographical location and natural resources. It has been demonstrated within a few years that lands that were once considered almost worthless are among the most productive in the State when brought within the benefits of irrigation. Then, again, the newcomers have the benefit of the costly experience of the elder settlers in the manner and matter of planting and marketing, and can commence operations understandingly at once. There are but few problems bearing upon the practical utility of the soil that remain unsolved. The county and city are well and economically governed, taxes are low, educational facilites are firstclass, the society is good, and there would seem to be nothing wanting to make the place attractive. But the principal factor in her advancement has been in the enterprise of her citizens, and, more especially, her press, in sounding her praises abroad. Agents have been constantly employed by her business men and capitalists to disseminate information throughout the East and West concerning her many advantages, and newspapers and pamphlets are being constantly met all over the country filled with valuable information on the subject in all its bearings. To the outsider the Los Angeles papers often appear exceedingly monotonous, and one tires of reading everlasting homilies on "climate and oranges," but it is good work in the long run. The Los Angeles editor never loses sight of this portion of his work, and if at times in the *dolce far niente* of semi-tropical life he becomes inert, he can be speedily aroused to vigorous action by any intimation that the climate of Los Angeles is not the finest, her fruits the most delicious, her soil the most productive, her oranges the sweetest, her people the most enterprising, her children the brightest and healthiest and her girls the prettiest of any in the world. No one will envy her her well deserved prosperity, which she has justly earned, but the people of other favored portions of the State should emulate her example of well directed enterprise, and endeavor to secure a corresponding reward.—*S. F. Post.*

The Business Situation.

There has not been a period in San Francisco, in California since it became a State, in the United States, nor in the commercial world, within the memory of man, when there was a more severe pressure in business affairs than there is now. And the look outwards is not encouraging. The great staples of trade have fallen below what have been considered bottom prices. Wheat is down to so low a figure that to produce it or to deal in it is more likely to result in loss than in profit. To grow it or to trade in it is alike a risk, with the outcome upon the debit side. Sugar is also down to unremunerative prices. And manufactories and enterprises are in critical condition. Of money only is there a surplusage, but to be utilized it must be assured of return and profit. There are millions upon millions lying idle and unemployed in the banks and in private hands, anxious for safe investment, for only upon such terms can money be obtained at rates which repay at the same time the lender and the borrower, so that security goes with use. Rates of interest have fallen to unprecedented low rates, and short time loans are made at merely nominal figures. But investments cannot be made at these abnormal rates. Capital is the blood of trade; without it industry and traffic alike must cease for the time. And it is timid because its life is perilous. Loss is death.

The business depression in California, particularly in San Francisco, is notable at this time, compared with that of any former period, because it is now world wide. Europe is suffering it; in the East it is unprecedented. Neither the panic of 1837, which was caused by inflation and contraction equally sudden, nor the panics which have since succeeded, can be cited as examples. It is traceable to other causes. There has been a revolution in the modes of business. The importer and jobber are no longer potential. Every merchant is his own importer, his own jobber. The young generation is crowding out the old. New means and broader opportunities have given scope and not always judgment to the current of trade; and finance must bend in order that it shall control, as it always will in the end. Competition is the life of trade, in general aspect; but there happen occasions when it becomes disastrous in its tendency. San Francisco is now experiencing this. This port has been the chief mart of the Pacific Coast, and the trade of the Pacific. It must always continue to be the chief mart; but it cannot be the only one. It has supplied the great Northwest and the country south. The Northern Pacific Railroad has interposed to take away the valuable trade of Oregon, of Idaho and Washington territories; the extension of the railroad system which gives through connection to the East by the Southern routes, has opened the way to rivalry in trade from that section of the country. San Francisco is particularly assailed from both directions. Her position is impregnable within her own State, but it is within this State that she must look for her trade and support. The Northwest has irrevocably gone. The competition for the trade of the Southern section and of Arizona is very straining, and part of it must inevitably be lost. Of all that has been enjoyed from Oregon, only the trade that can be reached by the California and Oregon Railroad, when completed, can be recovered.

With all this curtailment of the trade which San Francisco formerly possessed, there is, of course, a material decrease in the volume of business. Those engaged in it must accommodate themselves to the situation and prepare for the new and contracted order of things. The days of dollars and of dimes have passed away; the period of nickels and cents will inevitably ensue. There must be lest extravagance, closer economy, sharper methods and stricter rules in the pursuit and management of business, exampling those of the great trade emporiums of the East, surpassing them if possible. This must be the study and practice of the new generation; those habituated to old California methods cannot make the radical change which is absolutely essential to the greatly, radically, and quite suddenly changed condition. And the people will have to learn lessons from the same books. Californians must depend mainly upon their own State, keep better account of their own income and expenditure, cease the easy-going ways, and get down to hard-pan industry and bed-rock economy. More attention should be devoted to immigration and enterprise. Population is the greater want to supply. San Francisco must always continue to be the great city and mart of the Coast as New York is of the Atlantic; but there should be in the State the millions to better sustain this position. Consumption enlivens production. The State has a magnificent acreage, it requires only the occupancy of these. And trade will grow with settlements.—*S. F. Alta.*

No Assistance Required.

Mr. Cleveland was sitting at his desk when an attendant entered the room and placed a number of cards before him.

"Let me see," he mused, reading them off slowly. "Mr. Schurz, Mr. Curtis, Mr. Watterson, Mr. Jones—Jones? Jones? Ah, yes, of the *Times*; Mr. Pulitzer, Col. McClure——"

"You can say to the gentlemen who are waiting," replied Mr. Cleveland to the attendant, "that the Governor is very busy; that he is engaged in considering certain matters relating to his future Cabinet, and that he does not wish to be disturbed."

A Good Three-Year-Old.

A vineyard grower in Santa Clara county, California, says the Dixon *Tribune*, planted a new field in Mataro vines just three years ago. This year he sold his grapes. He got the almost incredible result of six and one-half tons to the acre, and received $30 a ton, in other words $195 an acre.

POPULAR VOTE.

The Official Figures Thus Far Canvassed.

The *Enquirer* has been at pains to secure by telegraph from the Secretary of State of each State the following official figures on the November vote. *En passant* it may be well to state that those having bets pending on the popular count are going to find a satisfactory settlement difficult. It will be observed that their stumbling blocks will be in the fusion tickets. For instance, a fusion ticket in Michigan, Nebraska and Iowa means Cleveland and Butler, and in Missouri it means Blaine and Butler.

MILLAR'S BAKING POWDER.

(GENUINE CREAM TARTAR.)

No Ammonia. No Phosphates. No Poison. No Alum. No Adulteration. No White Lies. No Deception. No Secrets.

IT POSITIVELY CONTAINS NO DUBIOUS INGREDIENTS,

But is simply pure and refined Cream of Tartar and Soda in the exact scientific proportions necessary to neutralize each other in producing the greatest amount of leavening power, combined so the goods will keep in any climate, and never fail to yield palatable, wholesome and satisfactory results. We believe that good goods create trade and promote health and happiness, and are confident that we work for the Public Good in making this truly convenient, practical and meritorious article more widely known, thereby causing it to be more generally used. Look for our trade mark; it always did and always will mean absolute purity, skillful manufacturing, correct and elegant packing.

Out of a great number of testimonials, we select the following from the eminent Professor of Chemistry, John H. Long, Sc. D., of the Chicago Medical College—a chemist whose honest investigations and fearless exposures in the practical field of Food Adulteration, gives special value to his statement upon this subject:

CHICAGO MEDICAL COLLEGE, CHEMICAL LABORATORY.

DAY DISPATCHES.

BALTIMORE, Dec. 8.—The closing session of the Plenary Council was marked by as great pomp and ceremony as on the opening day. There was a street procession from the Arch Episcopal residence to the Cathedral, which was witnessed by large crowds. On account of the sickness of Rev. P. M. Riordan, Coadjutor, Archbishop of San Francisco, Bishop Spaulding, of Peoria, preached the sermon, which was devoted chiefly to a review of the work of the Council.

After all the prelates had signed the decrees, Archbishop Kenuck went to the Apostolic delegates, and they exchanged a kiss of peace. Archbishop Alemany similarly saluted the Apostolic delegates. These veteran Archbishops then stood at the right and left of the Apostolic delegates. Each succeeding prelate then saluted the Apostolic delegate with a kiss and passing along the line saluted each of the preceding prelates. When the prelates, after this ceremony, had resumed their places, Archbishop Kenuck advanced to the front altar, and in a broken voice, said: "It has fallen to my lot to be the oldest bishop on this council, the arrangements and preparations for which it is needless to say cause great anxiety, care and labor for the Apostolic delegate, who presided over its deliberations, therefore I return thanks on behalf of its members." The feeble old Archbishop was obliged to stop frequently in delivering his short address, through infirmities and age, and at its close went with uncertain steps back to his seat among the Archbishops. The Te Deum was sung by a choir, the closing prayer recited and the Papal benediction pronounced by Most Rev. Apostolic delegate, and the third Plenary Council ended.

California Weather.

SAN FRANCISCO, Dec. 8.—A norther commenced Saturday at midnight and continued all yesterday, and is still blowing this morning. It is the most severe one ever experienced here, and the cold is intense. Street signs were blown down and windows blown in. Nearly all the vessels in the harbor dragged their anchors and several broke from their moorings. The bay was so rough that passengers on the ferry boats were sea-sick. The American ship Edward O'Brien, was blown away from the dock. Her position became so dangerous that the captain paid a steam tug $5,000 to tow her to a safe position. Two sections of the sea wall were damaged, and the new breakwater at the foot of Geary street was completely washed away. The damage to vessels and wharves is estimated at $150,000. Reports from interior points show that the violence of the wind was as great as it was around the bay.

At Hanford, San Joaquin county, there was a slight sprinkling of snow. At Newhall three inches of snow had fallen, and telegrams received there stated that it had been snowing as far south as the San Fernando tunnel. There was also a heavy fall of snow at Bakersfield, and at Portland, Oregon, and Victoria, B. C., it was snowing. At the latter point an extraordinary phenomenon was presented. While snow was falling a thunder and lightning storm suddenly burst forth, and the fall of snow ceased.

Train Robbers Arrested.

LITTLE ROCK, Dec. 8.—This place has been in great excitement all day on account of the robbery of the Arkansas Valley route passenger train on the outskirts of the city last night. Bloodhounds early this morning were put on the train robbers' trace and followed it straight into the city. Before noon Joseph Cook, J. C. Jones, John Clifford, Charles Campbell and a boy named Parker, six in all, had been arrested. Jones will probably be released. Three of those arrested have been identified as among the robbers. The State has offered one thousand dollars for the capture of the robbers, to which the railroad company has added a like sum.

A Temperance Revival.

PITTSBURGH, Dec. 8.—Francis Murphy inaugurated another temperance revival in this city, which promises to excel that of eight years ago. Twenty-five hundred signatures to the pledge have been obtained since last Sunday, and at a meeting at Music Hall to-night, several thousand people were present and at least two thousand were unable to gain admission. The meeting was the largest ever presided over by Murphy.

A Governor's Son Arrested.

ST. LOUIS, Dec. 8.—A dispatch from Saltillo, Mexico, says that news was received there that the son of Governor Madero was arrested at Parras last week by soldiers acting under a sealed order, for having in his possession several hundred arms and a supply of ammunition, and that he is still in confinement here. Governor Madero, for fear of personal harm, has gone to Laredo, Texas.

Bad on Smokers.

NEW YORK, Dec. 8.—The cigar manufacturing firm of Straiton & Storm announced to their two thousand employees Saturday night that their factory would discontinue work until the uncertainty about the new treaty with Spain in regard to the West India trade was removed.

The Plague on the Decrease.

PETERSBURG, Va., Dec. 8.—Information has been received through J. B. Hilton, a merchant of Wise county, that the plague in that portion of the State is now on the decrease. He says between 200 and 300 persons died, ranging in age from 3 to 80 years.

A Valuable Pearl.

GUAYMAS, Dec. 8.—A pearl weighing ninety-three karats, the largest known and valued at $17,000, which was purchased of an Indian diver for $90, was shipped to London yesterday. It was found at Minleje on the lower coast of California.

A Mormon Conference Broken Up.

SHEFFIELD, Dec. 8.—A Conference of Mormons led by Utah Elders was broken up yesterday by anti-Mormons whom the police lately ejected from the building. The second conference announced was abandoned.

A Centenary of Methodism.

BALTIMORE, Dec. 8.—The Centenary of Methodism begins to-morrow and continues until the 16th.

Struck a Bar.

NEW YORK, Dec. 8.—The ship Yorktown, hence for San Francisco, struck Sandy Hook bar and returned. She is leaking badly.

In cases of dyspepsia, debility, rheumatism, fever and ague, liver complaint, inactivity of the kidneys and bladder, constipation and other organic maladies, Hostetter's Stomach Bitters is a tried remedy, to which the medical brotherhood have lent their professional sanction, and which as a tonic, alterative and household specific for disorders of the stomach, liver and bowels has an unbounded popularity. A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y,

Being the Great Central Line, affords to travelers, by reason of its unrivaled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific.

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty Iowa City, Atlantic, Avoca, Audubon, Harlan, Guthrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri, and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

As it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains, composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT HORTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.
TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL via the famous

ALBERT LEA ROUTE.

A New and Direct Line, via Seneca and Kankakee, has recently been opened between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

IS RECOMMENDED BY ALL PHYSICIANS as a Blood Purifying Liquor. It is a sure remedy for Dyspepsia or Chills and Fever, and especially for all Kidney and Liver Complaints. IT IS THE GREATEST DISCOVERY OF THE AGE! This Extract is a pure compound of all the choicest Tropical Fruits and put up expressly for Medical and Family Use. Families and travelers should always be provided with a bottle of SIMMONDS' EXTRACT OF TROPICAL FRUIT. It is good for Sour Stomach, Sea Sickness and all Stomach Troubles. Also, Billiousness and Dyspepsia, and acts as a light purgative. No necessity for taking a strong Cathartic. The best physicians recommend it to everybody; particularly recommended by the faculty for Ladies' Complaints. Extracted from the following Tropical Fruits: Pineapple, Orange, Mangoes, Tapotilla, Bananas, Tamarinds.

MALARIAL DISEASES OF ALL KINDS SPEEDILY YIELD TO ITS POWERFUL ACTION. NOTHING EQUALS IT AS AN APPETIZER.

Its tonic properties are grand, and it renews wasted vitality and rejuvenates the system. Try it and become convinced. None genuine except my signature is across the cork. G. SIMMONDS.

SUMMONS.

In the Superior Court of the State of California, in and for the county of Los Angeles

L. W. WELLER, Plaintiff,
vs.
W. H. JACOBY, JOHN DOE and RICHARD ROE, Defendants.

Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the clerk of said Superior Court.

The people of the State of California send greeting to W. H. Jacoby, John Doe and Richard Roe, defendants.

You are hereby required to appear in an action brought against you by the above named Plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons—if served within this county; or, if served elsewhere, within thirty days—or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to recover judgement and decree against you and each of you quieting title of plaintiff in and to the following piece or parcel of land situate in the county of Los Angeles, described as follows:

Forty-three by 165 feet southeast corner of Eighth and Charity streets, bounded south by Creed, east by Starbuck; arroyo running through. And for costs of suit.

Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required the said plaintiff will apply to the court for the relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 29th day of October, in the year of Lord, one thousand eight hundred and eighty-four.

Notice of Co-partnership.

We, the undersigned, Daniel Pickit and Thomas Kelley, do hereby certify that we have this day entered into a co-partnership under the firm name and style of "Pickit & Kelley," for the purpose of carrying on the real estate, abstract and insurance business, in the city and county of Los Angeles, California. That the full names of all the members of said co-partnership are hereunto subscribed, and that each of said parties is a resident of said city and county of Los Angeles, California.

Witness our hands this 2d day of December, A. D. 1884.
DANIEL PICKIT.
THOS KELLEY.

STATE OF CALIFORNIA, County of Los Angeles. } ss

On this 2d day of December, one thousand eight hundred and eighty-four, before me, J. A. Graves, a Notary Public in and for said county, residing therein, duly commissioned and sworn, personally appeared Daniel Pickit and Thomas Kelley, known to me to be the persons described in and whose names are subscribed to the within instrument, and acknowledged to me that they executed the same.

In witness whereof I have hereunto set my hand and affixed my official seal, at my office in the city and county of Los Angeles, the day and year first above written.
[Seal.] J. A. GRAVES,
Notary Public.

I, A. W. Potts, County Clerk and ex-officio Clerk of the Superior Court, do hereby certify the foregoing to be a full, true and correct copy of the original certificate of copartnership on file in my office, and that I have carefully compared the same with the original.

In witness whereof I have hereunto set my hand and affixed the seal of the Superior Court, this 3d day of December, 1884.

The Emperor of Germany recently subjected himself to the "thought-reading" powers of Stuart Cumberland. His Majesty thought of 1861, the year of his coronation as King of Prussia, and Mr. Cumberland wrote the figures at the first attempt.

An event of exceptional interest to students of Mr. Robert Browning will take place in London on the 29th of this month. Under the auspices of the Browning Society a representation of the beautiful dramatic poem, "In a Balcony," will be given in the Prince's Hall, Piccadilly, this being the first time that it has ever been performed.

Believing that the stories told by travelers about the wonders performed by East Indian magicians were true, an American imported one of them. The result is a disappointment. The famous basket feat, so often described, proved to be so difficult that the performer, instead of becoming a valuable celebrity, is barely tolerated in the dime museums.

An epidemic disease lately broke out in the Navajo tribe of New Mexican Indians, and a medicine dance of unusual ceremony was deemed necessary. There were six performers in fantastic costumes. Each bore a stone-headed arrow of great size, to the stem of which was attached a tuft of feathers, in order to conceal the mechanism by which the implement was telescopically shortened. The feature of the ceremony was a trick by which the dancers seemed to thrust the arrows down their throats.

The Marquis of Lorne is still, according to the London World, desirous to go to Ireland as Lord Lieutenant, and it is possible that this post will be offered to him, should Lord Spencer retire in the spring. In the mean while, the Campbell family are sending telegrams to the Scotch crofters, to which they profess to listen, and writing articles in magazines to prove that all crofters, with the exception of those on the estates of Lord Napier &ttrick, are exceptionally well off, while those on the Argyll estates are in an earthly Paradise.

Guns, Guns, Guns.

The attention of the sporting public is called to the new arrival of guns just received by Mr. Wm. Lloyer, Sportsmen's Emporium, 18 Commercial street. They consist of double-barrel, breech-loading shotguns and rifles, which to the sportsman's life are gems. They were selected with the greatest care from some of the best of English makes and are of the very best value for money ever offered in this market. The most fastidious sportsman can be suited, there being over 200 to select from at prices from $ 9 single to a $90 Hammerless. Quality better and prices lower than any other house in California. 12-tf

Business Men of Los Angeles.

Many States in the Union at present are competing with California for European immigration, but the fertility of our soil and particularly the climate of the Southern part of the state, are great things in our favor. The most enterprising business men of Los Angeles come from all parts of the Union, among the foremost of which must be mentioned the Pacific Restaurant, opposite the Postoffice.

Dr. Frazier's Throat and Lung Balsam

Is the greatest remedy in the world for Coughs, Colds, Sore Throat, Influenza, Quinsy, Laryngitis, Croup, Hoarseness, Bronchitis, Asthma, Catarrh and Whooping Cough, and all diseases of the throat and lungs. It performs wonders in relieving Consumption. It strengthens the Lungs and instantly allays all irritation of the throat.

CLEVELAND, Ohio.

DR. FRAZIER—Dear Sir: I was troubled for about three months during the last summer and fall with Bronchitis and a bad cough. After trying several remedies without finding any relief, I used your Throat and Lung Balsam, and found immediate help. On retiring at night it gave me undisturbed rest, and after using the medicine three weeks I found myself cured. REV. F. NUTE.

Dr. Frazier's Throat and Lung Balsam allays all irritation of the throat, Penetrates and heals the Lungs, and assists nature by expectoration to throw off the corruption. Sold by druggists everywhere at 75 cts. a bottle. FRAZIER MEDICINE Co., Proprietors, Cleveland, Ohio.

Fine Presents.

W. F. Ball is now in receipt of the following fine presents: One pair Le Mair opera glasses, Oriental pearl, three combination meerschaum sets, "Tansill Punch Junior," one cigar case, one brier pipe, in case, and five copies "Sketches from Texas Siftings;" also a lot of "Tansill Punch" watch charms, which he gives away to the smokers of the "Tansill Punch" 5-cent cigar. Postoffice Cigar Store.

Inflammation, coughs, catarrhs, and pneumonia, resulting from colds may be cured by Ayer's Cherry Pectoral. It allays the inflammation, removes the irritation and soreness, soothe the organs, and restores the sufferer to health.

A Good Investment.

My friend, if in your wanderings in the pursuit of happiness you chance to spend a few minutes in the purchase of a luxury that will conduce to both health and pleasure, count the time well spent, and the article that will return the largest percentage of both is Tansill's Punch 5c. cigar, at the P. O. Cigar Store.

Building Lots
—ON THE—
22d and 23d Of December, 1884,
In the following Tract, to-wit:

43 lots in the West Rosas Tract, being all the unsold lots in said tract, as per map recorded in Book 5 of Miscellaneous Records, page 205, Records of Los Angeles County.

This tract is bounded on the west by Pearl street, on the north by Virgin and on the east by Philadelphia street. Is five minutes' walk from the Pico House and

OVERLOOKS A LARGE PORTION OF THE CITY.

Also 23 Lots in the Ocean View Tract No. 1,

Being all the unsold lots in said tract, as per map recorded in Book 5 of Miscellaneous Records, page 392, Records of Los Angeles County, situated west of Figueroa street and fronting on Temple street. This tract affords a most delightful view of the City, Los Angeles Valley and the Ocean.

It is almost a certainty that a Cable Railroad will be built within four months from the junction of Spring and Temple streets to Texas street, with cars starting from each end every five minutes.

The Sale will Take Place Each Day at 9 a. m. on the Ground.

The 22d of December the sale will take place on the West Rosas Tract,

and at seven o'clock p. m. of the same day, all the lots remaining unsold in the Mott Tract, will also be sold at Messrs. Kremer & Meizer's office, Insurance agents, in Temple Block, adjoining the Los Angeles County Bank.

On the 23d the Sale will take place on Ocean View Tract No. 1.

Free carriages will be standing opposite R. Rogers' office on Main street, near the St. Elmo Hotel, to convey purchasers to the place of sale.

A good lunch will be spread out on the ground each day at 12 o'clock M.

Also 40 Lots in the Mott Tract, to-wit:

In Block T lots 2 and 3, fronting on Hope street, 60x165 feet, close to the Normal School.
In Block I lots 12 and 13, fronting on Hope street and Bunker Hill Avenue.
Also the eastern end of lots 15 and 16, fronting 55 feet on Court House street and 120 feet on Bunker Hill Avenue, both streets being graded.
Also lots 5, 6 and 7 of the same block, which front on Bunker Hill Avenue and Charity street.
In Block L, lot 19, between Third and Fourth streets, fronting on Bunker Hill Avenue 60x145.
In Block 8, lots 3, 4, 5, 6, 7, 8, 9 and 10, fronting on Hope street, between Third and Fourth, each being 60x165 feet.
In Block Q, lots 1 to 16, fronting on Flower and Hope, between First and Second streets, each 60 feet by 165.
Also lots 12, 13, 14, 15, in Block T, fronting on Flower street, 60x165.
Also lots 12 and 13 in Block F, fronting on Charity street 60x165.

The above tracts are so well and favorably known and are covered with so many fine residences that it is superfluous to add any praise to their well known advantages.
All lots receiving two bids will be sold without reserve.
These lots are supplied with an abundance of Pure Spring Water.

THE TITLE IS PERFECT.

TERMS OF SALE.—One-fourth cash on delivery of document, the balance in six months with interest at the rate of 10 per cent. per annum. A deposit of twenty dollars will be required at time of sale, otherwise the lot will be resold at once in order to secure a complete sale.

COLONY LANDS.
The Temecula Land and Water Company
Are subdividing a tract of land situated in the celebrated
Temecula Valley, in San Diego County, California,

Recently owned by Don Juan Murrietta, containing fourteen thousand acres of land, having an altitude of about one thousand feet above the sea level. This tract of land lies about 45 miles southerly from Colton. The California Southern Railroad runs through the entire length of the tract. The soil in the valley is formed of sedimentary deposits. It is a rich, dark loam, without gravel or boulders, and can be easily tilled, as no clay or adobe soil appears, but is full of rich sediment, which holds the rainfall and prevents leaking or drying, so that when you come to cultivate you turn up moist earth. The superior value of this soil is its closely underlying supply of water, and when cultivated the moisture rises to the surface, doing away with the necessity of irrigation almost entirely, but in case of a dry season, if irrigation is thought to be necessary, an

Inexhaustible Supply of Water

Can be had by sinking from 2 to 10 feet. It is also in the artesian belt and artesian water can be easily obtained. The mesa is formed of undulating lands of reddish-colored soil mixed with decomposed granite on the surface, with enough mixture of clay in the subsoil to hold the moisture. There is a

Fine Running Stream of Water

With several branches running through the rancho. Also several hot and warm springs, noted for their cure of pulmonary diseases. These springs will be improved immediately and the Company design building a hotel and railroad depot on the townsite. Both buildings will be handsomely ornamented. The hotel will be built two stories high and contain thirty rooms.

The Directors of the Presbyterian College of Chicago, design putting a college building on the ground as soon as practicable. There is plenty of good oak wood which can be had delivered at the rancho at from $4 to $4.50 per cord, and common lumber can be delivered at $25 per thousand.

The climate is healthy. The rancho is not more than 15 miles from the sea coast and the ocean breeze fans the valley, purifying the atmosphere with invigorating effect. In the day time the air is soft and dry and always mild, a little cooler at night, but never more than being comfortable.

As a health resort, none in Southern California can surpass in natural advantages this beautiful district of land, with its warm springs of mineral water containing sulphur, iron and soda, its proper elevation above the sea, pure, dry and gentle air, with beautiful scenery all around, can but confirm the assertion that as a health resort it cannot be excelled, especially for catarrh, throat and lung diseases.

It is the intention of the Company, as soon as the land is subdivided, to sell in tracts from a town lot upward at prices that cannot but satisfy actual settlers. The prices will be classified according to the merits of the property. One-third down, balance in one and two years.

First Payment $50.

A division of the lots in Six Months, at which time purchasers can go upon the property and build.

Title Deeds from O. W. Childs Direct to Each Purchaser.

The finest centrally located property in the city at less price than for suburban lots, and all sold without interest on the amount unpaid.

SIX ELECTRIC MASTS TO BE ERECTED!

This splendid tract of land, taking in Eleventh and Twelfth Streets, and extending from Main to San Pedro Streets, in the

Very Heart of the Finest Improvements in Los Angeles,

Is now offered to the public by the owner, Mr. Childs, on terms that must command its immediate sale and improvement. Nearly every lot is

COVERED with ORANGE and LEMON TREES,

ENGLISH WALNUTS AND VINES OF THE CHOICEST VARIETIES.

All of over twenty years' growth. A lot on this tract needs but a cottage to form at once a beautiful home with charming grounds and improvements ready for occupancy. You are invited to view on Twelfth Street the residences of several citizens already erected on this tract. Many of these lots on Main Street have been held by Mr. Childs at $1,500 to $2,500 each. Lots on Los Angeles Street have been held at $1,000 to 1,200 each. There is not a lot on the tract that is not

WORTH THE SUBSCRIPTION PRICE OF SIX HUNDRED DOLLARS.

—o—

The Title is Perfect.

—o—

Streets are Being Opened and Six Masts with Electric Lights will be Erected Immediately.

The division of the lots takes place in six months, at which time the purchasers meet together and choose a committee of three disinterested citizens and a Recording Secretary, the names of the purchasers being placed promiscuously in a box. As each name is withdrawn by one of the committee the purchaser, or his or her representative, immediately makes a choice of one lot on the large map exhibited, and that choice, being recorded by the Secretary of the meeting, is unchangeable, and will receive a deed for the same direct from Mr. Childs. This is on the plan of the best homestead associations of other cities.

The Extremely Low Price

At which these central lots have been placed justifies the belief that even the least valuable one of the whole tract will be

WORTH $1,000 WITHIN THE TIME FOR FULL PAYMENT,

While others will more than quadruple the present very low rate. Lithographic maps of the 200 lots, streets, location of Electric Light Masts, etc., etc., are now ready at the agency. As this enterprise is not a money-making one, but believed to be a great public good, aiding in the wonderful progress of our city, the books of subscription will not be placed in a real estate agency, but will be opened on

Wednesday, November 26, at 10 O'clock A. M.,

OPINIONS OF THE LOS ANGELES PRESS

Before the Opening of Subscriptions.

[From the Los Angeles Evening *Express*, November 22d.]

VALUABLE REAL ESTATE.

The O. W. Childs Tract to be Divided and Placed on the Market.

The O. W. Childs tract, which comprises six complete blocks and portions of twelve others, commencing at Main street, opposite the residence of O. W. Childs, and running back to San Pedro street, and now covered with orange trees and vines from fifteen to twenty years of age, is about to be divided into 200 building lots and disposed of in a manner that is sure to greatly improve that favorite portion of our city and enhance its value. The plan upon which these valuable lots will be sold is this: Subscriptions will be received at the uniform price of $600 per lot. At a certain time, to be fixed in the future, after these lots have been disposed of, a meeting of the subscribers will take place, their names will be written on slips of paper and drawn from a box by some disinterested witness, and each subscriber will name his lot on the map as it is drawn. It is beyond question that some of these lots, more particularly those on corners, as well as those fronting on Main street, are worth two or three times $600, and it is thought that all of them are worth at least that amount. The payments are made so easy that any one with a situation will be able to meet them, the first being $50 and the balance at the rate of $25 per month. Six electric masts are to be erected on the tract at once. The disposal of so many splendid building locations in this manner will doubtless stimulate building in that section in a marked degree. A more detailed announcement of the plan will appear in the advertising columns of the *Express* next week. Messrs. J. M. Duncan & Co. will be the agents for Mr. Childs in obtaining the subscriptions.

[From the Los Angeles DAILY HERALD, November 22d.]

New Homestead Enterprise.

One of the most feasible and at the same time one of the most practical and attractive homestead schemes that has ever been inaugurated in Southern California, is about matured and will be fully explained in a few days in the advertising columns of the HERALD. It consists in the subdivision of the celebrated Childs tract, lying between South Main and San Pedro streets. This beautiful tract of well matured citrus trees and vines has been laid out into two hundred lots, with streets and alleys, which will be put on to the market at the nominal price of $600 per lot, payable in easy installments. Some of the lots are worth to-day $3000 each, while none of them are worth less than the uniform price asked. At the end of six months the purchasers choose a committee to draw by lot for choice of lots, so there will be an equal chance for each purchaser to get the most valuable lots. Six electric light masts will be erected on the tract at once, which will illuminate the tract brilliantly and make it, with the beautiful orange groves, one of the most attractive residence localities in the city. The facilities for access, drainage, sewerage and water supply are of the highest order. The fact that many of our merchants, professional and business men have already selected homesteads on lots adjoining this beautiful tract and built up elegant homes will make this one of the choicest locations in the city. J. M. Duncan & Co., of the Diamond House, are agents for this new homestead tract and will be prepared to put them on the market in a few days. This homestead enterprise will revive the building boom in the residence portion of the city and no doubt be a great success.

[From the Los Angeles Daily *Times*, November 23d.]

A NEW ENTERPRISE.

Opening of the O. W. Childs Tract.

An important improvement and enterprise will be commenced in a few days on South Main street. The O. W. Childs tract, comprising six blocks, lying between Main and San Pedro streets, is to be subdivided and placed on the market in lots. These lots, valued at the uniform rate of $600, are to be sold on a plan by which the buyer of a lot pays $50 down and $25 monthly installments for twenty-two months, at the end of which time, or before he pays up in full, and receives a deed from Mr. Childs. The position of his lot is determined by chance, the matter being arranged by a committee selected by the shareholders, each shareholder having an equal opportunity at the expiration of six months, at which time the meeting for division takes place. The tract is to have new streets opened through it as speedily as possible, and every block will be lighted by an electric mast. The land is covered with fine deciduous and semi-tropical trees, and the property is considered among the most valuable outside the business portion of the town. There are many fine houses now on the tract. Water and sewer pipes can easily be laid, and the proprietor will spare no expense to make the enterprise a success. It is almost certain the lots will double in value within a year. The subscription books are to be opened this week. J. M. Duncan & Co., of the Diamond House, will act as agents.

British Benevolent Society.

At the regular meeting of this society on Saturday night last a communication was read from its representative of a central British Immigration Agency at Washington requesting information as to the class of emigrants likely to succeed here. After some discussion it was resolved that the class most in demand were farmers having capital to the amount of $2,000 and upwards, and domestic servants, and that other persons should not be encouraged to come here at present. The Secretary was instructed to communicate the resolutions to the agency at Washington by whom it will be published in England.

Madame Lassaugne's Ballad Concert.

On Sunday last several of the most esteemed pastors of this city announced from their respective pulpits the benefit concert which is to be tendered to the Madame on Tuesday evening next, December 16th, at the Grand Opera House, at which she will be assisted by the first artists in Los Angeles. All the reverend gentlemen expressed a conviction that a great musical treat was offered and advised their hearers to avail themselves of it in as large numbers as possible. Certainly Madame Lassaugne deserves the sympathy and support of every sympathetic and honorable person.

Incorporated.

Yesterday the Laminated Iron Pipe Company filed articles of incorporation. The Directors are Dan McFarland, George Partridge, J. P. Culen, James C. Kays, H. T. Lee. The object is to manufacture laminated iron pipe and the capital stock is $25,000.

Articles of incorporation of the Pasadena Bank were filed. The Directors are P. M. Green, D. Galbraith, B. F. Ball, John Allen, H. G. Bennett, J. Banbery, of Pasadena and G. H. Bonebrake, of Los Angeles. The capital stock is $50,000 and the bank will be established at Pasadena, Los Angeles county.

G. A. R.

At the regular meeting of Frank Bartlett Post No. 6, G. A. R., the following officers were elected for the ensuing year: Commander, James Joyes; Sr. V. C., J. H. Weeks; Jr. V. C., J. D. Fyke; Surgeon, W. E. Reed; Chaplain, H. Rhea; Quartermaster, L. S. Butler; Officer of the Day, S. Hazledine; Officer of the Guard, A. R. Arey; Delegates to Department Encampment, Horace Bell, A. A. Saunders, J. H. Weeks, E. A. Weed and Phil Lauth. The installation of the newly elected officers will take place the sixth of next January.

Shipping News.

The British ship, The Douglas, Captain Metcalfe, arrived at San Pedro yesterday from Newcastle, N. S. W. The Douglas is a new iron ship of 1,498 tons. She brings a cargo of about two thousand tons of coal. Consignees, Balfour, Guthrie & Co., of San Francisco.

The British ship Yarra Yarra has discharged her cargo and will sail to-day for Portland, Oregon, where she will load wheat for Europe.

Palm Garden.

This favorite place of amusement has been steadily growing in popularity. Last Saturday and Sunday evening the building was crowded to a jam. On Saturday evening Miss Gisela Liebhold, the eleven year old prodigy, in instrumental music, was the recipient of a beautiful hunting case ladies' watch and chain from some unknown admirer in the audience. Among the attractions this week is "The Naiad Queen" who performs in the tank of water a la mackerel.

Y. M. C. A.

The monthly social of the Y. M. C. A. will be held at their hall, Nadeau Block, this evening. The Congregational choir will furnish the music, and Bessie Wheeler will give the recitations. Miss Wheeler's reputation as an elocutionist is well known. After the programme an "old fashioned candy pull" will be the second in order. An admission of 25 cents will be charged.

Holiday Goods.

The Los Angeles Jewelry Store is offering bargains in holiday goods which can't be discounted in this city. It would be well to give them a call and examine their stock before purchasing elsewhere. The gentlemen comprising this firm are practical manufacturing jewelers, and turn out none but first-class work. A call at their establishment will convince the most skeptical of this fact.

Some Pumpkins.

The Santa Barbara *Independent* says: "Los Angeles county is crowing over a 16 ounce apple. When she can produce pumpkins that weigh 309 pounds, like her sister county, Santa Barbara, she may well be proud. They make splendid children's play houses when the insides are taken out."

Messages Uncalled For.

There are messages uncalled for at telegraph office, 20 N. Main street, for the following persons: W. G. Armstrong, Charles Mattei, care of F. Quimby; B. J. Wheeler, care of T. W. Hiller; David & Smart.

Recorded.

The following instruments were filed with the County Recorder yesterday: 19 deeds, 4 mortgages, 6 releases, 3 miscellaneous papers, 2 marriage licenses.

Marriage Licenses.

Licenses to wed were yesterday granted to John Hughes and Maggie Edwards; John Craig and Emelien Hunter.

Real Estate Transactions.

A sure indication of the faith which people have in this country is the enormous volume of trade in real estate. Last week a very important sale took place of the Reed estate, in Rancho La Puente, embracing a sale of 1,400 acres to Mr. W. J. Brodrick, $7.25 acres to F. Grazide, and a half undivided interest in 1,161 acres to Thomas Rhodes, Esq. This sale amounted to $60,000, and will be followed by important improvements to that opulent part of the county.

On Saturday last the transfers amounted to $45,000, distributed through 29 conveyances.

The amount of land put under cultivation in this county this year will doubtless amount to 50,000 acres more than last year, and last year exceeded any preceding year in the amount under cultivation.

A very important movement is taking place on the Mojave desert and the adjacent Antelope valley. About 10,000 acres of land will be put under cultivation in that section this winter, to various kinds of grain, fruits and vegetables.

A very important improvement is going forward at the west border of the brushland five miles west of Lancaster depot, on Section 15, Township 7, N., Range 13 W., where Mr. M. L. Wicks is putting down an artesian well that will soon make a copious flow of pure water and give the settlers an abundant supply for gardening and alfalfa growing. The water from this well can be carried to the northeast from this well, and by putting the same in a concrete reservoir can be used on a large amount of land in Sections 15, 14, 11 and 1, in that Township. Other wells will follow this over an area of 100,000 acres of rich soil, which will be admirably adapted to dairy purposes. Evergreen millet and alfalfa and sweet corn and sorghum will be planted for the use of the cattle.

In Pomona, Azusa, La Cañada, Duarte, San Rafael and Cahuenga real estate is selling rapidly for improvement. The skies appear to be bright all round the sky.

The Winter Rains.

The winter rains commenced on Sunday when some squalls passed over the city to change to sleet on the mountains. A chilly northeast wind during the day, succeeded in the night in producing a series of light showers that began about 2:30 o'clock A. M. and continued till 8:30 A. M., leaving a rainfall of the night of .51 inches, according to the record of Mr. C. Ducommun, and .41 according to the record of Mr. G. H. Bliss. The Signal Service reported .37 inches. At Centinela Mr. D. Freeman reports .75 inches. In the mountains a series of showers of sleet fell heavily, covering the beetling crags with sheets of ice. All the way from Newhall to San Francisco were squalls of snow, while at San Francisco the wind was very boisterous. At San Pedro the sea was very rough but not so much as to be dangerous.

The rainfall of the season is very nearly even with that of last year. The fall rains last year were 1.42 inches. This year they have been 1.38 inches, a difference of only .04 before the winter rains commenced, in favor of last year. Last year the December rains began on the 3d of the month. This year they are only four days behind, beginning on the 7th. With low barometer, it is evident that the storm is not over yet. The temperature is very low and with the mountains covered with sleet, will make a good condenser of the vast mass of vapor in the air and result in copious rains. It is evident that this great, wild storm, which was a thousand miles broad, will march from the Pacific to the Atlantic. The highest velocity of the wind in Los Angeles was 20 miles per hour, while in the central and northern part of the State the wind was a regular gale, and the temperature was below the freezing point.

Examination of E. W. Jones.

The preliminary examination of E. W. Jones, charged with killing his wife by strangling, was begun yesterday at 2:30 P. M. before Justice Ling. Henry O'Melveney appeared for the people and Colonel J. F. Godfrey for the defendant. The first witness examined was E. F. Jones, a son of the deceased woman. He stated that on Thursday evening about 6 o'clock his father and mother ate supper at his house. After the meal they stayed at the house a short time. Mrs. Jones assisted her daughter-in-law to wash the dishes. In a few moments thereafter she said she was going to her house, which was located about one hundred yards away. The prisoner asked her, "Will you have company?" The witness did not hear the reply. Shortly after Mrs. Jones went out the prisoner left also. In about thirty minutes he came back to his son's house, and drawing a long breath, said "Eddie, I am afraid your mother is dead."

The witness started over to the mother's cabin, followed by his father. Upon entering he found the body of the woman on the floor. Stooping down the witness put his ear over the heart of the woman, and exclaimed, "Yes, she's gone."

The witness further stated that the old lady had threatened to get the defendant "out of the way." Upon the day previous to the tragedy Mrs. Jones had had some words with the witness. The latter wanted her to give him a deed to twenty acres of land. This she refused to do. At the same time she threatened to have him (the witness) driven from the place and his father arrested. She made the threat against the defendant because he had allowed a certain picture in the house to be carried away by a relative. The witness further testified that his mother had been troubled with a cough and a pain in her side.

Coroner Nadeau made a post-mortem examination of the body and found the lungs congested.

The testimony of Mrs. Jones, as submitted at the Coroner's inquest, was placed in evidence.

The case was continued until to-day at 10 o'clock.

A Gas Explosion.

Yesterday afternoon, about five o'clock, when the shadows began to deepen, a clerk in F. Adams' tailor shop, on Spring street, thought a little artificial light would be beneficial, and started to ignite the gas in the large show window. This clerk, whose name is William McCreesh, met with the most astounding success in his efforts to illuminate the store. He got inside of the show window and struck a match. At that moment a terrific explosion took place. McCreesh was landed on his back in the middle of the store and the large plate glass show window was shattered into a thousand pieces. A volume of flame filled the window, and another clerk rushed forward and shut the gas off at the meter. McCreesh was badly burned about the face, and his eyebrows and mustache are among the things that were. He was taken to Preuss & Pironi's drug store and cooling lotions were applied to his scorched face. The loss on the window is probably one hundred dollars. It is evident that the gas was escaping and a quantity of it had accumulated in the window and on the lighting of a match made itself felt with expensive emphasis.

Accidentally Shot.

A son of Abraham Royse, on Roosevelt street, about fourteen years of age, accidentally shot himself at Los Alamitos on Sunday about noon. The charge of shot hit him just above the heart on the left side, glanced around the ribs and left a fearful wound. The lad was brought to the city and had his wounds dressed by Dr. T. P. Huckins, who reports favorably on the case so far, but it is possible that some of the duck shot with which the gun was loaded may have penetrated into the lungs.

Just Retribution.

Mr. J. G. Denison of San Antonio Cañon, after having his chicken ranch invaded by some "varmint" unknown, has finally succeeded in capturing the beast that did the mischief, which proved to be a lively lynx. This lynx is a powerful pussey, and will be properly prepared for the New Orleans Exposition, as a warning to other lynxes to let chicken ranches alone.

Passengers South and East.

MERCED, Dec. 8.—Following is a list of the south-bound passengers passing here this evening:

J M Jones, F Jaynes, A G Howe, J Howell, I I Norlheut, E B Tyler, San Francisco; C I Hart, San Jose; J I Richardson, Louisiana; Miss Minnie Traver, Santa Monica; D W Rowland, Missouri; Capt I Lamauy, Geo W Crow, Winsport, Pa.; A H Jouey, Sacramento; J Levey, Arnold.

Mr. J. Donovan

Paid us a visit on his arrival from San Francisco. He is a brother-in-law of the well-known plumber and honored citizen, Mr. J. C. McMenomy, and comes for the purpose of opening, in partnership with Mr. H. J. Lawlor, the "Elite Saloon," formerly known as the "Castle Dome," on the corner of Main and First streets. We give him a hearty welcome, and wish the boys hearty success in their enterprise.

A Present.

Nothing is nicer for a Christmas present than a good photograph, and to obtain it you should call at F. G. Schumacher's studio opposite the postoffice.

OUR NEW ORLEANS LETTER.

A Plain Prosaic Account of Most Poetic Facts—The Electricity of Modern Life as Exemplified by the Grace and Glow of the Queen and Crescent City.

[Special Correspondence.]

December 1, 1884.

We have arrived in a paradise of fruits, flowers, balmy breezes, rainbow-robed women, and perpetual street parades. We came from Cincinnati by the new line or, as it is poetically called, the Queen and Crescent. Last night, being Sunday, was a paradox in our experience, for everything was an emphasis of electric light and a boom of movement that suggested merriment. The theatres were pouring out crowds on the broad banquettes already lined. In the morning the churches poured out equally well, for this is the most religious city in the country, and the churches, according to statistics, are far better attended than elsewhere. We took a long rest at the Hotel Royal, a finely furnished place, which has long lain fallow, so to speak, and only opened up now for the first time in many years. We found everybody talking Exposition and almost every third man proved to be an exhibitor. Monday morning after a hearty breakfast on pompano, brochetts of chicken livers, Creole eggs, coffee and oysters decollette, we sallied forth and took a mule car on Canal street.

A mule car will carry a visitor from Canal street to the Exposition gate for a nickel—"half a dime," as the street peddlers say. If one happens to take the Prytania street line he can see an attractive part of the Garden District. In this locality are fine residences, and the gardens that surround them and seem to keep them in and intruders out are rich in foliage, redolent of flowers and resplendent with ripe oranges, like

MULTITUDINOUS PHOTOGRAPHS

Of his majesty, the Sun.

After an half-hour ride, the car swung round on a side street like a ship entering a harbor through an irregular channel, and the City Park came into view, or at least a part of it, and there a half mile away was the Main Building looming up in all its grandeur. It stood out in stereoscopic sharpness against the blue and golden sky, and did not seem to be dwarfed at all by the buildings near by, almost as imposing and imperial. A stranger with a harsh voice, who had evidently been sampling bad whisky successfully, said: "Take a good look at it, gents, for you can't see it when you get to it, 'cause it's so big." In a few minutes we were at the end of the route and descended from the car not two hundred feet from the front door of the United States and State Exhibits Building. The structure is enormously large, but is second in size of the Exposition group of buildings. We looked about for a moment or two and perceived on the right, in the direction of St. Charles avenue, one of the large iron hotels, six hundred feet long, only begun two weeks and now nearly completed. On the left were a number of temporary erections of wood, where the retail dealers in beer, sandwiches, hard boiled eggs, pies and things awaited the arrival of the pie-eater. He will be here, and he will come in force, and one of his characteristics is, that he loves

TO BITE HIS PIE

by the wayside, eating it in faith and faithfully. We entered the great building and found active preparations for the opening of the Exposition going on in every direction. The majority of the State collective exhibits has already arrived.

Nebraska claims notice as being the first to open and display her exhibit in the building. Opposite to the main entrance was the model postoffice of the government display, an ornamental structure that appeared as ready for use. In the Louisiana department was a large and interesting forestry exhibit, calculated to arrest the attention of the North-west lumber kings. In every direction carpenters and workmen were busy building receptacles, shelves, tables and racks for the proper display of the exhibits that were piled up here and there. In the centre of the building were many cases containing a part of the government exhibits. There is a wide gallery that extends entirely around the inside of the building. On the gallery over the main entrance stands an artificial representation of a mammoth, set up by Prof. Ward, of Rochester, N. Y. This gentleman has been on a collecting tour for the Exposition through Asia, Africa and Europe, since last February.

As we left the building by the rear entrance, we noticed that the headquarters for live stock on the opposite side of the park were getting a winter, no

A SUMMER OVERCOAT

from the painters. We hurried over to the Main Building, passing by the Michigan Furniture Building, and also the Building for Public Comfort, where visitors will be able to obtain a luncheon while making a tour of the Exposition.

In the main buildings we discovered the busiest scene. Men were hurrying to and fro. Platforms for the display of exhibits were in course of construction as far as the eye could reach; pavilions, of various sorts, sizes, and of every conceivable pattern, were being or had been erected. We went into the Machinery Hall, where there was more din and pounding than elsewhere. At one end we found the refrigerator and cold storage apparatus. As we stood there an engine backed a train of cars loaded with exhibits into our midst. The engine made a great fuss puffing and smoking, notwithstanding the notice forbidding smoking in the building.

Next we inspected the reservoir that is there sunk into the ground and half filled with water. Crowds of visitors passed or filed by in single order, all intent on seeing the nearly completed Exposition. An elderly lady asked her young companion what the water was for. "I suppose," said the young lady, looking up

IN A ROGUISH MANNER,

as with a parasol she pushed a lump of the sacred soil of Louisiana from her small arched foot, "I suppose that this is where they mean to bathe the sacred white elephant." On account of the huge engines, that are being put in position, we could not readily make our way through Machinery Hall, and so entered Music Hall that occupies the central portion of the Main Building. The ten thousand opera-folding chairs made in Cincinnati were being placed on the floor of the Hall. We found the organ builders and mechanics at work setting up the great Exposition Organ on the back part of the stage. We passed out of the Main Building after taking a look at the boiler-house in the rear, where there is a large number of boilers of different kinds. Machinery Hall, originally 1378 feet long by 300 feet wide, has received an addition of 570 by 120 feet, in order to accommodate the

UNDREAMED OF INCREASE

In the number of exhibitors. Near by is the sawmills building, 600 feet long, having an iron roof. Having but little time we visited, in quick succession, the Art Hall, located nearly in front of the main building, and constructed of iron. This will be ready for the reception of pictures and sculptures shortly, and we learned that from Antwerp alone 147 entries had been made. Our artists better look to their laurels if other foreign cities do half as well. The Horticultural Hall, now being filled with rare domestic and foreign plants, we found to be a radiantly beautiful place; the grand fountain under the central tower, throwing up seventy-five jets of water, was being tried, and worked very well. Near at hand was a cocoanut tree bearing bunches of nuts.

A glance at the iron octagon building, which has been built between the main building and Horticultural Hall by the Mexican Government for the reception of its mineral display, showed it to be a tasteful design of the Moresque order. This massive but light looking structure stands near the centre of

THE MEXICAN GARDEN.

In the two large buildings the electric light wires were being put up, and high towers for lights in many places. The illumination of these grounds will be of itself an electrical exposition, for all the systems will be represented—the Edison, the Leavitt-Muller, Brush, Jenny, Thompson and Houston, which aggregate 4000 incandescent and 1100 standard arc lamps, requiring 1650 horse power of engines for the electric lighting alone, or 200 horse power more for this service than the big Corliss engine that furnished the entire power for the Centennial buildings, and which is now at Pullman, 1,400 horse power.

The miniature lakes scattered about are filled with water pumped up from the river by the powerful Worthington steam pump. The asphalt walks are set off and beautified by borders of yellow gravel brought from the State of Mississippi. After inspecting the Mexican National headquarters in the lower corner of the river front of the park, a picturesque wooden structure surrounding a court-yard and having accommodations for cavalry and infantry soldiers, as well as executive offices and apartments for the display of special Mexican exhibits, we hurried back to the street car in order to avoid the crowds that go down town as night approaches. And now the night is approaching—night or another

DAY IN DISGUISE,

For the "ebon goddess" has been forced to abdicate her "starry throne" in New Orleans, and the poet Young, that melancholy owl, would have found himself forced to acknowledge some bright and brilliant facts in this life if he could have been environed by the ten-mile chain of her electric lights. New Orleans plumes herself on being the most radiant as well as the most fragrant city in this grand and beautiful world, of which she will give you all in a few days a most delightful and instructive exposition.

Funeral of J. H. Hickman.

The funeral of J. H. Hickman, a charter member of the Thirty-Eights, took place on Sunday afternoon, at 2 o'clock, under the auspices of the Fire Department. Mr. Hickman was 53 years of age, and died of a disease of the heart. The Union Band, with fourteen pieces, led the procession to the plat occupied by the firemen in the City Cemetery. The funeral was attended by a detachment from the various fire companies of the city; and the burial was conducted by Undertaker Albert Brown. On arrival at the cemetery Rev. F. M. Kirkham, pastor of the Christian Church, spoke extemporaneously from the text, in Job 14th chapter 14th verse. "If a man dies shall he live again?" after which the various detachments marched to their respective headquarters and were dismissed. The services were largely attended and very impressive, and showed that our noble firemen while they strive to save the living are not unmindful of the respects due to the dead.

Important to Ladies.

The Peerless Dry Goods Emporium of California, the City of Paris, proposes to present to each lady customer one fine linen hemstitched handkerchief. All who purchase goods to the amount of one dollar or over will be presented with this token of appreciation. Remember our goods are marked in plain figures—one price, and you do not have to pay for the handkerchief. We are better prepared to give the community great bargains in goods than any other so called cheap dry goods houses. We do not depend upon the "limited" credit established or given by any individual or firm. Neither do we depend upon friends or relatives for this limited credit. "But the markets of the world are ours," and we secure the products of the finest and best looms of the world, and still you don't have to pay for the pure linen hemstitched handkerchief at City of Paris.

Call at the City of Paris for ladies' pure linen hemstitched handkerchief.

Holiday Benefit. One ladies' pure linen hemstitched handkerchief presented to each lady who purchases goods to the amount of one dollar and over. City of Paris.

Don't purchase any linen hemstitched handkerchiefs when you can get them without any charge at the City of Paris.

We sell as cheap as any dry goods store in the city, our goods are all marked in plain figures, one price, and you don't have to pay for the ladies' pure linen hemstitched handkerchief, which is presented to each lady who buys goods to the amount of one dollar and over. Ask for the hemstitched handkerchief. City of Paris.

Benefit—Ladies pure linen hemstitched handkerchiefs given away at the City of Paris.

Why purchase linen hemstitched handkerchiefs when you can get them without charge at the City of Paris, by purchasing goods to the amount of one dollar and over. Goods marked in plain figures, one price. You don't pay for the handkerchief. City of Paris.

Delighted.

It is the word used by everyone when referring to the new and agreeable fruit syrup which has been found to be the most efficacious remedy for biliousness and constipation ever discovered. Syrup of Figs is so pleasant to the taste, so easily taken, so gentle yet thorough in its action that it is pronounced by all, the one perfect remedy, one of the best properties of this most excellent and popular remedy, is that of giving strength to the organs on which it acts, so that regular habits may be formed and the system restored permanently to a healthy condition. Our enterprising druggist, C. F. Heinzeman, is selling it very rapidly.

Delayed Too Long!

Have you secured a lot in the O. W. Childs tract? Hundreds of persons who expect to do so will delay it too long and be disappointed.

A Cordial Invitation.

On Wednesday, December 10th, the drug store of Dr. McDonell, in Rose Block, will take on a genuine holiday appearance. An immense stock of the latest styles of plush, leather and crystal goods have just arrived from Paris and Vienna and will on the above date be displayed. A cordial invitation is extended to every one to call and examine these beautiful novelties. No effort will be spared to make the visit a pleasant one and no one is expected to make a purchase merely because they wish to examine the goods.

Lewis's Specials.

A comparison of our goods and prices respectfully solicited.

Mr. H. J. Lawlor, for the past two years in the employ of the well known wholesale and retail liquor dealers, Joe Bayer & Co., has associated himself with Mr. J. Donovan of San Francisco and will open the "Elite" Saloon at the corner of Main and First streets, on Saturday evening, the 13th inst., where his friends will receive a hearty welcome.

What You Know

When you subscribe to a lot in the splendid tract now offered by O. W. Childs:

You know that our shrewdest and oldest citizens are subscribing to the lots and that you can see their names at the agency.

You know that you are buying a large lot in the very center of city improvements at one-half the price usually asked.

You know that your house, if you build one, will be in the midst of beautiful homes of reputable citizens.

You know that your lot, in any location in the tract, is worth to-day more than you are paying for it, though you are buying on two years' credit, without interest.

You know the croakers and fault-finders are always behind the times, and remain poor and homeless to the end.

You know that the almost universal verdict is in favor of this splendid property, and if you lose this opportunity twice the sum now asked will not give you so good a homestead again.

You know that in the 209 lots offered there are forty-three on Main and Los Angeles streets, worth from $1000 to $2500 each, and that all the other lots are cheap to-day at from $600 to $1000.

You know that you can give your family vineyard and orchard, fig trees and orange groves by paying $25 per month.

And you know that improvident croakers and fault-finders spend more than $25 per month for whiskey and tobacco, and that their wives and children are in rented rooms till they grow old and die.

You know that the land lies in the best condition for homesteads, and that health and comfort will be attendant upon your location and remain within your dwelling.

CONSUMPTION

Bronchitis. Consumption.

And all the various diseases of the Head, Throat and Chest, including the Eye, Ear and heart, successfully treated by
M. HILTON WILLIAMS, M. D., M. C. P. S. O.
Office, 275 North Main street, next the Diamond House, Los Angeles, California.
All diseases of the Head, Throat and Chest, viz.: Catarrh, Throat Diseases, Asthma, Bronchitis, Consumption, Catarrhal Deafness, Catarrhal Ophthalmia and Diseases of the Heart treated by his new and improved system of Medicated Inhalation, which carry the remedies directly to the diseased parts, thereby effecting cures in many of the so-called incurable cases, the greater part of whom had not the slightest idea of ever being cured.
In order to show the afflicted public how easily and quickly lung diseases can be cured by our system of practice, we append the following letter from a reverend gentleman who is known by many residents of Los Angeles and all over the Northwestern and Eastern States, and because the subject of the letter is to-day living and a stout, healthy man, and still residing in the State of Michigan.
From Rev. L. R. Fiske, D. D., President Albion College, Albion, Mich., formerly pastor Central M. E. Church, Detroit, Mich., and editor of the Christian Advocate.
DETROIT, Mich., Sept. 22, 1879.
DR. WILLIAMS—*Dear Sir*: I am glad to add my testimony to the efficacy of the treatment my son has received. In the Spring of 1877, my son, then at the age of 28, was suffering from a severe affection of the bronchial tubes and lungs, so as to be compelled to keep his room, and most of the time his bed. Within the space of two weeks he experienced about a dozen hemorrhages, from which the ordinary remedies afforded but temporary relief. I applied to you, who supplied him with inhaling medicines, which effected an immediate arrest of the bleeding, and which has never occurred since he began the inhalation, and which fully restored him to health.
Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake. Nearly every case requires positive medication, so as to become rid of the offending matter—the consolidated portions of the lungs—so as to give nature an opportunity to heal them.
CONSULTATION FREE. Those who desire to consult me in regard to their cases or to location as to climate had better call at my office for consultation and examination, but if impossible to do so can write for a copy of my Medical Treatise, containing a list of questions. Address
M. Hilton Williams, M. D.,
275 North Main street, Los Angeles, Cal.
Office hours—From 10 A. M. to 4 P. M.
Sundays from 3 to 4 P. M. Professional visits before and after office hours. dec7
